Dear Resident

Re: Road Works – PDG64092: Sewerage Pump Station 92-7 Donald Road, Redland Bay

Redland City Council's Internal Construction Crews and Contractors will be constructing a replacement sewer main along a section of School of Arts Road, from Denham Boulevard to approximately 60 meters past the Cypress/Bedarra Streets Roundabout, Redland Bay.

The project will involve the supply and installation of a sewer rising main, a small section of gravity sewer main, manholes and associated works. These works will use both open trenching and tunnel boring construction methods.

Traffic detours will be in place during work hours for all west bound traffic travelling between Denham Boulevard and Cypress Street. Outside of work hours the traffic detour will not be in effect.

The planned working hours are 7.00am to 6.00pm, Monday to Friday.

It is anticipated that the works will commence during the week of 6th January 2020, will be completed by April 2020, (weather permitting).

Please follow the direction of Council Staff and qualified Traffic Controllers when travelling through and around the worksite at all times.

We apologise for any inconvenience caused during this time and thank you in advance for your participation and co-operation.

For further information regarding the project please visit yoursay.redland.qld.gov.au or call (07) 3829 8999.
